News Release

FOR IMMEDIATE RELEASE

National Twins Organization Sponsors Race in Denver

(Nov. 1, 2008 – Franklin, Tenn.) The National Organization of Mothers of Twins Clubs Inc. (NOMOTC) announces support for the 5th Annual TTTS Race for Hope on Sunday, Nov. 9, 2008 at Washington Park in Denver.

This national charity event includes a 5k Run/Walk, a Kid's Fun Run, a Family Festival sponsored by NOMOTC and one of Denver's largest post race Sponsor Expos. "The family festival is unique to most standard run/walk events in the country," says Lonnie Sommers, Fetal Hope Foundation chairman and founder. "The family festival is all about family doing healthy and fun things together."

The entire family can enjoy more than 15 activities including crafts, carnival games, face painting and jumper castles. For the second year, the event will feature a stroller 5k for those pushing a stroller while walking or running.

The event is designed to spread awareness and to restore hope for families dealing with Twin-to-Twin Transfusion Syndrome (TTTS) and other fetal syndromes. All funds raised by this national charity event will benefit the Fetal Hope Foundation.

About NOMOTC

The national support organization was founded in 1960 and is comprised of local chapters and individual members primarily concerned with education and research pertaining to multiple birth children -- twins, triplets and higher-order multiples. NOMOTC, (www.nomotc.org), is headquartered in Franklin, Tenn. and serves more than 25,000 members with 400 clubs in 44 states across the country.

About the Fetal Hope Foundation

Headquartered in Littleton, Colo., the Fetal Hope Foundation, (<u>www.fetalhope.org</u>), is a national nonprofit organization dedicated to research, funding and support for TTTS and other fetal syndromes affecting multiple birth pregnancies.
